

SERGII ZELINSKYI

PYTHON DEVELOPER

ABOUT ME

Qualified engineer and Full Stack developer with experience in solving business problems through programming. Responsible, organized, and always ready to learn. I am fond of the latest technologies, actively researching the field of artificial intelligence (AI) and looking for opportunities to apply my knowledge in modern projects.

EXPERIENCE

Freelance Python developer 2023 - 2024

- I have developed software from simple scripts to a large CRM. I have worked with Aiogram, Django, FastAPI, Flask, Selenium, BS4, sqlalchemy, peewee, html, css, bootstrap, js, React, GO, and others. You can see my work in the portfolio
